

Intermountain Championships

The Intermountain Championships consists of two events, one for IIIs and IIIs and another for JIVs and JVs.

The field for each event is approximately 150. IIIs are selected from a seed point board that includes results from all races run through the selection date. IIIs, JIVs, and JVs are selected from a world cup point board based on results from North and South Series races. There is a separate set of world cup points for each class. III points are awarded in all North Series, South Series, and South J2–J3 Series races. JIV and JV points are awarded in slaloms and giant slaloms in the North Series, the South Series, and the South J4–J5 Series. Racers earn points for their class only and only if they are properly licensed at the time that they participate in a race. Racers who are not licensed or who have outstanding obligations at the time of a race do not earn points in that race.

The total number of III and III racers who have participated in North/South Series (or higher level) races is divided into 237 to determine the percentage of III girls, III boys, North III girls, South III girls, North III boys, and South III boys that will be invited to the Intermountain J2–J3 Championships. 237 is the sum of the Intermountain quota for the III and III Olympics plus 165 (150 + 10%). As racers may not attend both the Junior Olympics and the Intermountain Championships, this will result in a field of approximately 150 at the Intermountain Championships.

For the J4–J5 Championships, 165 (150 + 10%) is divided into the total number of JIV and JV racers who have participated in North/South Series (or higher level) races to determine the percentage of North JIV girls, South JIV girls, North JIV boys, South JIV boys, North JV girls, South JV girls, North JV boys, and South J5 boys who will be invited to the event.

Only the selected individuals may attend the event. There are no substitutions for athletes who are injured or otherwise unable to participate.

Racers appear on the world cup point board with the sum of their best two results in each discipline. When two racers have the same total from their best two races, their third (and fourth, if necessary) best result is used to break the tie. When a tie can not be broken, a T is used to indicate that the racer is tied with the previous racer and both will be selected if either is selected (in that column).
